VSB - TUO
Computer Science
2019 - 2021

CTU IN PRAGUE
Information and automation
Product and econonomics
2015 - 2019

PROFILE

I'm Viktor – a Frontend Developer with 3 years of experience, passionate about crafting engaging user interfaces with Vue.js and Nuxt. I've embraced diverse challenges across team projects and roles, gaining robust skills in QA automation, full-stack development with Node.js, and foundational DevOps. I also mentor through Czechitas, contributing to diversity and innovation in tech. Outside of coding, I pursue fitness, music, and martial arts as part of my holistic growth.

EXPERIENCE
